

What's new in WorkCenter 2.0

We at vForms are very proud of our recent WorkCenter CRM 2.0 release. We have made over 20 major enhancements to our popular industry specific contact management and CRM solution.

You can view the major enhancements by opening your WorkCenter CRM software and clicking on "HELP" and "VIEW CONSOLE". When this screen view appears, click on the button named: "What's New In This Version". Click the box with the "+" sign next to the heading "What's New".

Thank you for selecting WorkCenter CRM by vForms.
